

SINOTec's welding workbenches are suited for welding and correctly aligning workpieces.

They are frequently used at vocational training centres, interplant training centres and apprentice training shops.

Model 600

- iron bar grill for the deep welding process
 - fireclay bricks for flat welding process
 - can be secured (bolted) to the ground
 - offers a good working height of approx. 800 mm
 - with drawer to catch slags (surcharge)
 - standard frame colour: light blue (RAL 5012)
- Other RAL-colours on demand**

Welding Workbench, model 600

	Weight	Article no.	Price €/pc.
Model 601: worktop 600 x 600 mm, working height 800 mm	37 kg	SWT-600-600	312,90
Model 602: worktop 600 x 900 mm, working height 800 mm	50 kg	SWT-600-900	417,90
Model 603: worktop 600 x 1200 mm, working height 800 mm	70 kg	SWT-600-1200	488,30
Work piece clamp	5 kg	SWT-600-Z-SCHW-VOR	103,40
Drawer to catch slags	2,7 kg (model 601)	SWT-600-Z-SCHU	78,80
Water tank	1,9 kg	SWT-600-Z-WAS	51,90
Welding torch holder		SWT-600-Z-BH	51,90

Further welding workbenches, for example welding workbenches with extraction, or workbenches for special purposes on demand.

Model 700

- continuous worktop, 10 mm thick
 - solid steel construction
 - storage shelf at the bottom, 520 mm
 - can be secured (bolted) to the ground
 - offers a good working height of approx. 800 mm
 - bench is available with or without drawer
 - standard frame colour: light blue (RAL 5012)
- Other RAL-colours on demand**

Welding Workbench, model 700

	Weight	Article no.	Price €/pc.
Model 701: worktop 700 x 760 mm, working height 800 mm, without drawer	60 kg	SWT-700-760-OS	609,00
Model 702: worktop 600 x 1500 mm, working height 800 mm, without drawer	130 kg	SWT-700-1500-OS	861,00
Drawer for model 700: 475 x 526 mm with lock	15 kg	SWT-700-Z-SCHU	173,30
