

Optiduu Noise Protection Film

The Optiduu film is a superior material when it is used as a flexible noise protection partition. The barite increases the weight per unit area to 5 kg/m² with a thickness of only 2.2 mm. The material has a high tear strength. The green cover film on both sides increases the film with regard to optical aspects but it also enhances weather and UV resistance also.

Rolls, plastic with barite and reinforcing, coated with green film on both sides.
Rolls: 10 x 1.5 m Thickness: 2.2 mm

Size	Style	Colour	Packing Unit	Weight	Article no.	Price €/m ²
1,5 x 10 m x 2,2 mm	rolls à 75 kg	green on both sides	1 roll (15 m ²)	5 kg/m ²	OCO-5011	41,70

Delivery ex stock

The Optiduu noise protection film can only be supplied as a packing unit (roll)

DämmTac Noise Protection Film

DämmTac films are used as transparent partitions against draught, dust, moisture and noise. There are a wide range of thicknesses and sizes available to cover specific applications from dust protection partition and noise protection curtains to films for swing-doors.

Rolls, plastic, transparent

Rolls: 20 x 1,5 m Thickness: 2, 3, 5, 7, 10 mm Maximum width: 2200 mm

Cutting according to drawing or specification

Size	Style	Colour	Packing Unit	Weight	Article no.	Price €/m ²	
Rolls	1,0 x 20 m x 2 mm	rolls à 50 kg	clear	1 roll (20 m ²)	2,50 kg/m ²	OCO-DT-SFG-2-10	23,00
	1,0 x 20 m x 3 mm	rolls à 75 kg	clear	1 roll (20 m ²)	3,75 kg/m ²	OCO-DT-SFG-3-10	34,50
	1,5 x 20 m x 2 mm	rolls à 75 kg	clear	1 roll (30 m ²)	2,50 kg/m ²	OCO-DT-SFG-2	23,00
	1,5 x 20 m x 3 mm	rolls à 112,5 kg	clear	1 roll (30 m ²)	3,75 kg/m ²	OCO-DT-SFG-3	34,50
	1,5 x 20 m x 5 mm	rolls à 187,5kg	clear	1 roll (30 m ²)	6,25 kg/m ²	OCO-DT-SFG-5	57,50

	Thickness 10 mm	cut to size*	clear		12,5 kg/m ²	OCO-DT-ZUS-10	166,20

Delivery approx. 2-3 weeks

Special dimensions and cuttings as well as requirements for greater than 250 m² please send us your inquiry!

* Minimum price for cutting is 50,00 €/pc.

Anti-Drone Magnetic Film

Working on sheet metal, thin-walled objects or saw blades emits noise due to the vibration. The anti-drone magnetic film can be simply laid on the work piece, reliably absorbing the vibrations. Being reusable the film can be utilized on the next work piece as required.

Plastic with iron oxide and green coated on one side, delivery as a set of two pieces. Special versions (minimum 10 m²) are possible on demand. Special colours (for example white) are possible on request.

Size	Style	Colour	Packing Unit	Weight	Article no.	Price €/PU
500 x 600 x 1,4 mm	2 pieces	green on one side	1 set	2,2 kg/set	OCO-MAGNETFOLIE	79,50
